Mr. Matt Sprout
Director of Technology

Mr. Jeff Sewell
Director of Operations

Dear Parent,

Welcome to Franklin Community Schools. We are happy you have joined us and look forward to working with your child/children.

As a new student in our school district, your child has the opportunity to be considered for high ability services. Our school district defines a high ability student as a student that performs at or shows the potential for performing at an outstanding level of accomplishment in general intellectual ability, math, or reading when compared with other students of the same age, experience, or environment; and is characterized by exceptional gifts, talents, motivation, or interests.

We will test students new to the corporation in incoming grades 1 through 9 in late July 2020. **To qualify for placement consideration, your student’s previous documented performance must be at least at the 90th national percentile on a standardized achievement test in reading and/or math, or your child must have received a Pass+ on the ISTEP+ test in reading/language arts and/or math. A score in the 90th national percentile or higher on a standardized cognitive ability test would also qualify your student for placement consideration.** If you don’t have the information requested above, please provide any data that you do have for your child. I will then be in touch to let you know if the data provided will suffice for summer testing consideration.

To register your child for summer testing, you should complete the form below, attach previous test performance documentation, and return it to your school’s office by Friday, July 24, 2020. You need to also have registered your child to attend a school in the Franklin Community Schools. You must submit documentation of previous test performance in order for your child to be tested for high ability placement. Any additional information regarding participation in high ability programs at previous schools will be taken into consideration as well.

Summer high ability testing is tentatively scheduled for Tuesday, July 28, 2020, but further specifics will be sent to you once your paperwork is received. If you have questions, please ask the principal of your child’s school, or you can call me at 317-346-8800 or email me at heidenm@franklinschools.org.

Sincerely,

Dr. Mark Heiden, Principal
Creekside Elementary School
High Ability Coordinator
Franklin Community Schools
